

Rosemarie Garner is the owner of R Garner Custom Designs, LLC – a to-the-trade custom window treatment design and fabrication firm serving the Northern New Jersey, Montclair NJ, and NYC areas.

Rosemarie's former life was as an actress, but after she started a family she wanted to be able to stay home with her children. Since she sewed as a child, and is passionate about design, starting a custom workroom seemed like the next step. She has officially been in business since 2006, and her workroom is on the third floor of her house.

R Garner Custom Designs works closely with designer clients in a collaborative way to ensure their vision is executed perfectly. R Garner Custom Designs keeps up with current trends in window treatment design through our membership in the WCAA, Design and Drapery Pro Network, and industry educational conferences.

Rosemarie's work can be viewed on Houzz and Facebook. Her website is currently under construction.
